

RECOMMENDED PREDEFINED LAYOUT: 'On-Ship'

B083 - Clayoquot Slope

A streamlined UI layout for logging while watching video outside of STv3. Displays only the Annotation Entry & Annotation List widgets:

2. Dive ID & Area

- 'Dive In Progress' alert appears during live dives

3. General UI Options

- Layout Options – show/hide widgets, or choose predefined UI layouts
- Video Mode toggle – Historical/Live
 - Only available during live dives

ANNOTATION ENTRY WIDGET

4. Annotation Entry options

- Ensure Quick Entry, Attributes, and Capture Time are all selected

5. Button Sets

- Select a button set from the dropdown
- Buttons – click a button to fill the annotation with a taxon and its default attributes

1. Auto Save – select to save annotations when button set buttons are clicked

6. Date & Time

- CAPTURE TIME – click to set the annotation's timestamp

7. Taxonomy and Taxon select – pick a taxon when editing or not using buttons

8. Comment – free text annotation entry

9. Attributes

- ADD AN ATTRIBUTE – click to add a new attribute to this annotation
- List of attributes for this annotation

10. Save options

- Clear – clear all fields
- Save and Keep Time – save the annotation, but retain the Date and Time values for the next annotation
- Save – save the annotation

The screenshot displays the SEATUBE V3 On-Ship Logging UI. The top bar shows 'H1809 - Clayoquot Slope - Bullseye' and 'DIVE IN PROGRESS'. The left panel is the 'Annotation Entry' form, and the right panel is the 'Annotation List'.

Annotation Entry Form:

- Date:** 2020-09-16, **Time:** 03:20, **CAPTURE TIME**
- Taxonomy:** ONC-DS, **Dive Operations:** / ... X, **Comment:**
- + ADD AN ATTRIBUTE:**
- Resource Type:** Dive, **Resource:** Dive 4260
- Select an Attribute:** Depth (m), **Enter Value:** 700
- To Be Reviewed:** ☐ **CLEAR** **SAVE & KEEP TIME** **SAVE**

Annotation List:

- 601 of 601**
- 11** (Annotation List options)
- 12** (Currently selected annotation): ROV on bottom [DS01], Depth (m): 700, Created By: Yan Chen (2021-05-31 20:48:31)
- 13** (Annotation taxon name & [taxonomy code]): In Position [DS01], Depth (m): 700, Device ID: 12345, Heading (T): 180, Latitude (DD): 45.823747, Longitude (DD): -127.2387634
- 14** (Annotation attributes): Autonomous CTD mounted on instrument platform, Created By: Yan Chen (2021-05-31 20:48:46)
- 15** (Annotation comment text): Carcharodon carcharias (blue pointer, jumping shark, cowshark, mudshark, demon shark, anchovy-eater, tuna shark, white shark, great white shark, upbit, Tommy, white death shark, white death, great white death, death shark, white pointer, man-eater shark) | ID: 105838 [WoRMS]
- 16** (Annotation options): You're going to need a bigger boat.
- 17** (Biological annotation using WoRMS taxonomy)

ANNOTATION LIST WIDGET

11. Annotation List options

- Refresh the annotation list to see recent changes
- Filter for different annotation types
- Number of annotations in this dive
- More options

12. Currently selected annotation

- Highlighted in green
- Highlight progresses through the annotations in sync with the video

13. Annotation taxon name & [taxonomy code]

14. Annotation attributes

15. Annotation comment text

16. Annotation options

- Link – get a URL for this annotation
- Edit – brings up the annotation in the Annotation Entry widget for editing
- Delete (coming soon!) – permanently delete the annotation

17. Biological annotation using WoRMS taxonomy
