

# Available Data Products

## All data products

The following dynamic list of all of the data products, are being pulled from the [dataProducts](http://data.oceannetworks.ca/api/dataProducts?method=get&token=[YOUR_TOKEN_HERE]) web service using the URL [http://data.oceannetworks.ca/api/dataProducts?method=get&token=\[YOUR\\_TOKEN\\_HERE\]](http://data.oceannetworks.ca/api/dataProducts?method=get&token=[YOUR_TOKEN_HERE])

The **dataProductCode** values can be used as a filter on the [locations](#) and [devices](#) services and along with **extension** values on the [dataProductDelivery](#) service. Filters on the **dataProductCode**, **dataProductName** and **extension** columns can be used to reduce the results returned from the [dataProducts](#) service. The **helpDocument** column provides a link to the Help documentation for the specific Data Product. All of the information about the data product options and their usage, needed to successfully request a data product, can be found in the documentation.

dataProductCode	dataProductName	extension	helpDocument
3DCIS	3D Camera Image Stitching	tar	<a href="https://wiki.oceannetworks.ca/display/DP/86">https://wiki.oceannetworks.ca/display/DP/86</a>
