Kistler Accelerometer Raw Files

Kistler accelerometer raw files (**KIC**) are a raw binary format acquired directly from the instrument. Each file normally contains 5 minutes of data. See the manufacturer's website: http://www.kistler.com/ca/en/products/components/acceleration-sensors/ or contact us for more details.

Oceans 3.0 API filter: `dataProductCode=KARF`

Revision History:

- 20141104: Data product added

Formats

KIC

Kistler accelerometer raw files have one format: binary files with .kic as the extension.

Oceans 3.0 API filter: `extension=kic`
