

Available Devices

The following is dynamic list of all of the devices that have data. It is being pulled from the [devices](#) web service using the URL [http://data.oceannetworks.ca/api/devices?method=get&token=\[YOUR_TOKEN_HERE\]](http://data.oceannetworks.ca/api/devices?method=get&token=[YOUR_TOKEN_HERE])

The **deviceCode** values can be used as a filter on the [locations](#), [properties](#), [dataProducts](#) and [dataProductDelivery](#) services. Filters on the **deviceCode** and **deviceName** columns can be used to reduce the results returned from the [devices](#) service. The **deviceLink** column provides a link to the Device Listing page for the specific device.

Error rendering macro 'json-table'

Error 500 retrieving server data from URL.
