Available Data Products

All data products

The following dynamic list of all of the data products, are being pulled from the dataProducts web service using the URL http://data.oceannetworks.ca/api/dataProducts?method=get&token=[YOUR_TOKEN_HERE]

The **dataProductCode** values can be used as a filter on the locations and devices services and along with **extension** values on the dataProductDelivery service. Filters on the **dataProductCode**, **dataProductName and extension** columns can be used to reduce the results returned from the dataProducts service. The **helpDocument** column provides a link to the Help documentation for the specific Data Product. All of the information about the data product options and their usage, needed to successfully request a data product, can be found in the documentation.

Error rendering macro 'json-table'

Error 500 retrieving server data from URL.
