Get your API token
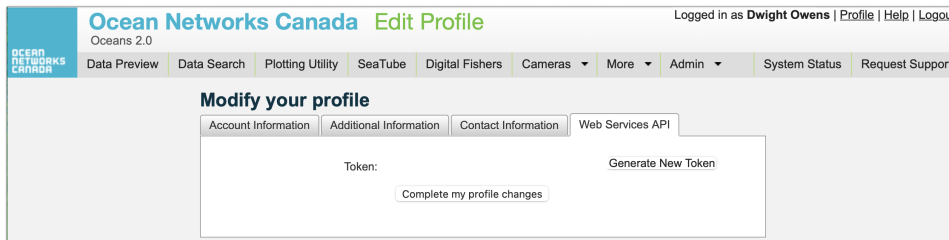

All Web Services provided by the Oceans 3.0 API require a token, as indicated by *"token=YOUR_TOKEN_HERE"* in the API Reference Guide.

Step-by-step guide

1. Log in to Oceans 3.0 via https://data.oceannetworks.ca/login
2. Click *Profile* in the upper-right corner of the screen (or visit https://data.oceannetworks.ca/Profile)
3. Go to the *Web Services API* tab:

4. Click *Generate Token*.

- Every user should use their own token (don't share your token).
- You can also generate a new token if desired.
- If you publish scientific literature that makes use of ONC data, please remember to Cite Us.
